### Catch 'n Compare

#### Teacher-Made Activity

Reinforce "greater than" and "less than" symbols with this splashy, hands-on activity!

#### You'll Need:

- T10638 Smiley Faces  
*Classic Accents® Variety Pack*
- T53107 Numbers 0-100 *Skill Drill Flash Cards*
- Markers, craft eyes, colored paper, tape, and scissors

#### Directions:

Two whimsical smiley face fish make it easy to learn and remember greater than and less than!

- To make the fish, draw a wedge over an eye of a Smiley Face as shown. Cut out the wedge and use it to fashion a fish tail. **Hint:** Right eye for "less than" and left eye for "greater than."

- Attach a fish tail and craft eye to each fish.
- Label one fish "greater than" and the other "less than" and let the game begin!
- Choose two Flash Cards to compare, using the correct fish to show which number is larger or smaller.
- Reel in the fun as children learn "greater than" and "less than" symbols and how to use them.

#### Make It Your Own:

Depending on the flash cards chosen, you can compare nouns and verbs, money amounts, fractions, evens and odds ... any number of things.
