Directions:

Bring excitement to calendar time with brain-boosting pocket challenges!

- Frame a piece of 24" x 14" poster board with trimmers and borders. Tape a mini accent to the left and right corner to add pizzazz.
- Create a header with the letters.
- Use Terrific Labels™ to label pockets with Days, Weeks, Months, and Holidays. Attach pockets to the poster board and display near your calendar.
- Create 14 flash cards for each category with questions on the front and answers on the back. Decorate with stickers and place inside pockets.
- Invite a student volunteer to select a card from a pocket and read the question out loud for the class to solve.
- Then get caught up in the thrill of scouring the calendar for the right answers!

Make It Your Own:

Pocket challenges are perfect for practicing math, language arts, science ... any subject! For a fun twist, add student-written word problems to the pockets.
