

## ★ Featured Display

**Subject:** Language Arts

**Learning Objective:** Celebrate individuals and build a sense of community.

Display the pieces as shown for a year-round birthday board. Write each student's name on a tag. When it's time for their birthday, place their name in the center of the display.

Students create a coral reef of compliments about their classmate by writing words of admiration and praise on accents. Add accents to the display.

For added fun, invite everyone to write a short story on sheets of Terrific Papers® about a birthday bash using the adjectives from the coral reef. Share the stories with family and friends!

## ★ You'll Need:
