#### Directions:

Wondering who's who on the first day of school? Get to know your classmates and practice using adjectives with this fun, hands-on activity!

- Pick a hand and pair up with a classmate to interview.

- Take turns asking each other this question: "How would you describe yourself?"
- Listen carefully and take good notes!
- Write your classmate's name in the center of the hand. Add an adjective describing that person to each finger.
- Introduce classmates with a show of hands!

#### Make It Your Own:

**Can you guess the mystery object? On each finger, write an adjective "clue" describing an object in the classroom. Then challenge your classmates to guess what it is.**
