Mighty Mobile

Teacher-Made Activity

Turn your favorite Dino-Mite Pals™ into a mighty mix of whirl and twirl to the delight of all viewers ... stimulating colors and shapes included.

You'll Need:

- T10991** Dino-Mite Pals™
Classic Accents® Variety Pack
- T85114** Dino-Mite Pals™ *Bolder Borders®*
String, scissors, and double-sided tape or glue

Directions:

- Cut two pieces of border 20" long. Tape or glue the ends of one piece together to use as the base of the mobile. Set the other aside to use later.
- Choose six, colorful dino accents. Each dino has a right- and left-facing version for a perfect back-to-back match up.
- Cut six pieces of string about 16" long.
- Tape an end of each string between two matching dinosaurs.
- Attach the strings to the mobile base, allowing the six strings to hang at varying lengths as shown.
- Attach four strings (approximately 12" long) an equal distance apart at the top of the base. Tie them together at the top and use for hanging.
- To finish the mobile, tape the second 20" long piece of border to the inside of the base.
- Hang this exciting mobile from the ceiling to liven up your space and spark interest.

Make It Your Own:

Use Dino-Mite Pals™ products or other borders and accents you have on hand.
