

Learning FUN! Activity

Create an organized, owl-some classroom community!

Nifty Name Tags or Job Tags

Teacher-Made Activity

Encourage friendship, responsibility, and classroom pride with easy-to-make name tags and job tags.

You'll Need:

T10587 Owl Stars!® Mini Accents

T10586 Star Medal Mini Accents

Thick yarn, tape, scissors, and a marker

Directions:

- Braid three pieces of yarn together. **Hint:** Make sure the yarn is long enough for students to wear around their necks.
- Bring the two ends of the braid together and knot them to create your lanyard, leaving an inch of unbraided yarn after the knot. Fluff the ends for fun fringe.

- For name tags, use the Owl-Stars!® Mini Accents. Write "Who am I?" across the top and the student's name across the owl's tummy.
- For job tags, use the Star Medal or Owl-Stars!® Mini Accents and write the task across the middle, like "Fish Feeder."
- Attach the completed accents to the lanyards with tape, covering the knots.
- Give students name tags to wear on the first day of school to help them get to know each other. Then assign them a different job tag each week, so that they feel part of the class. What a nifty way to build friendships and an organized, caring classroom community!

Make It Your Own:

Use Owl-Stars!® or other characters for a different twist. Invite children to decorate their name tags with stickers, sequins, or other craft supplies you have on hand.
