

Learning FUN! Activity

Learn numbers &
practice counting all
the way to 100 days!

Owl 100 Days

Teacher-Made Activity

Have a hoot building math skills with friendly owls and a 100 Day display!

You'll Need:

- T10875 Bright Owls Mini Accents Variety Pack
 - T10652 Bright Owls Classic Accents® Variety Pack
 - T9873 Blue Terrific Trimmers®
 - T78002 White 1" STICK-EZE® Stick-On Letters
- Tape and markers

Directions:

Create a hands-on 100 Day display!

- Prepare strips of trimmer by placing stick-on numbers an equal distance apart along the length.

- Create milestone markers using Classic Accents®. Place milestone markers every 5, 10, or 25 days to practice skip counting or other math skills.
- Each day, one child places a Mini Accent owl over the next number on the strip.
- As a group, count the days as you progress to 100. For added fun, try hopping, skipping, or clapping while you count out the days!

What a fun way to learn numbers and watch the school year progress! Celebrate the 100th day with special activities that feature the number 100!

Make It Your Own:

Invite students to use different colored owls for odds, evens, 5s, or 10s, and watch for patterns in the owls on the number strip. Can anyone guess what color owl comes next?
