

# Learning FUN! Activity

It's an owl-fully special delivery! Open the lines of communication with a classroom mailbox. It provides students the opportunity to make classroom suggestions and to leave notes for the teacher, and is the perfect way for teachers to deliver class news, updates, and special messages back to the class.

## Owl Mail

### You'll Need:

**T-11422 Owl-Stars!™ Terrific Papers™**

**T-92358 Owl-Stars!™ Blue Pattern Terrific Trimmers®**

**T-10880 Owl-Stars!™ Mini Accents Variety Pack**

A large round oatmeal container with lid, scissors, tape or glue, foam core, tag board, chenille stems, a brass fastener, and a marker.

### Directions:

1. Being careful not to cut through, score a straight line on the inside of the plastic top about 1/3 of the way from the edge. When placed on the container, the lid should pull down like a mailbox door.
2. Cut a piece of tag board so it fits over the oatmeal container forming a dome-like shape. Cover the tag board with Owl-Stars!™ Terrific Papers™ and secure with glue or tape. Write "Owl Mail" horizontally along the short side of the paper. Cover the oatmeal container with the decorated tag board, and secure with glue or tape.
3. Lay the oatmeal container on its side and create a rectangular border all the way around it out of foam core, including in front of the "door."
4. Cover the foam core with Owl-Stars!™ Blue Pattern Terrific Trimmers®.
5. Create the mailbox flag from a rectangular strip of foam core and attach an Owl-Stars!™ Mini Accent to the top.
6. Use a brass fastener to attach the flag to the container – it should be able to be moved up and down when complete.
7. Make a pull for the mailbox door from a piece of tag board or trimmer.
8. For the topper, glue or tape an Owl-Stars!™ Mini Accent to one end of a chenille stem. Twist the stem into a curl and attach to the top of the mailbox with glue or tape.
