

Learning FUN!

Activity

Keep math skills sharp
with pocket challenges!

Pocket Math

Teacher-Made Activity
*Deliver a daily dose of dino math
with an addition game that is
easy to set up.*

You'll Need:

- T23019** Make-Your-Own Pocket Flash Cards
- T77905** Bright Colors Terrific Pockets™ Variety Pack
- T46339** Labels superShapes Stickers – Large
- T46196** Dino-Mite Pals™ superSpots® Stickers
- T10865** Dino-Mite Pals™ Mini Accents Variety Pack

Glue and a marker

Directions:

- Create 3 sets of 10 addition flash cards each featuring a different number. For this activity, we used ones, twos, and threes.

- Write addition problems on the front of the cards and answers on the back.
- Add stickers below each number on the cards to help younger kids practice their counting skills.
- Glue a mini accent on each pocket, and attach a label. Write ones, twos, or threes on the labels.
- Place each set of cards in the correct pocket.
- Challenge children to draw a card from all 3 pockets and solve the problems for a daily dose of dino math!

Make It Your Own:

Once kids have mastered their ones, twos, and threes, move on to the next round of math facts. You can also create different pocket challenges with subtraction problems, puzzles, fun facts, sight words, Challenge Cards®, and more!
