

Learning FUN!

Activity

What a blast to receive a really cool rocket! These mini spaceships are great for student awards and can easily be filled with fun prizes such as stickers. They also make great party favors.

Rocket Awards

You'll Need:

- T-92358 Owl-Stars!™ Blue Pattern**
Terrific Trimmers®
- T-92360 Stars 'n Dots** *Terrific Trimmers®*
- T-10882 Dancing Stars Mini Accents Variety Pack**

Scissors, glue, tape, 9-ounce plain paper cups, a marker, chenille stems, and construction paper.

Directions:

For each rocket, start with a 9-ounce plain paper cup. Glue 2 strips of Terrific Trimmers® together with pattern to the outside. Using the Terrific Trimmers®, trace and cut out three fin shapes using the fin template provided with this activity. Fold back the long, straight edge of each fin and tape or glue the fins around the bottom of the cup, flush to the

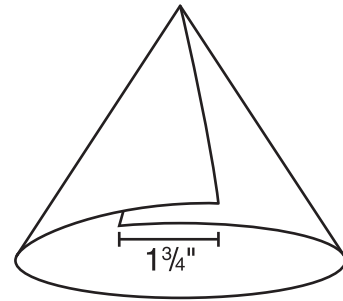

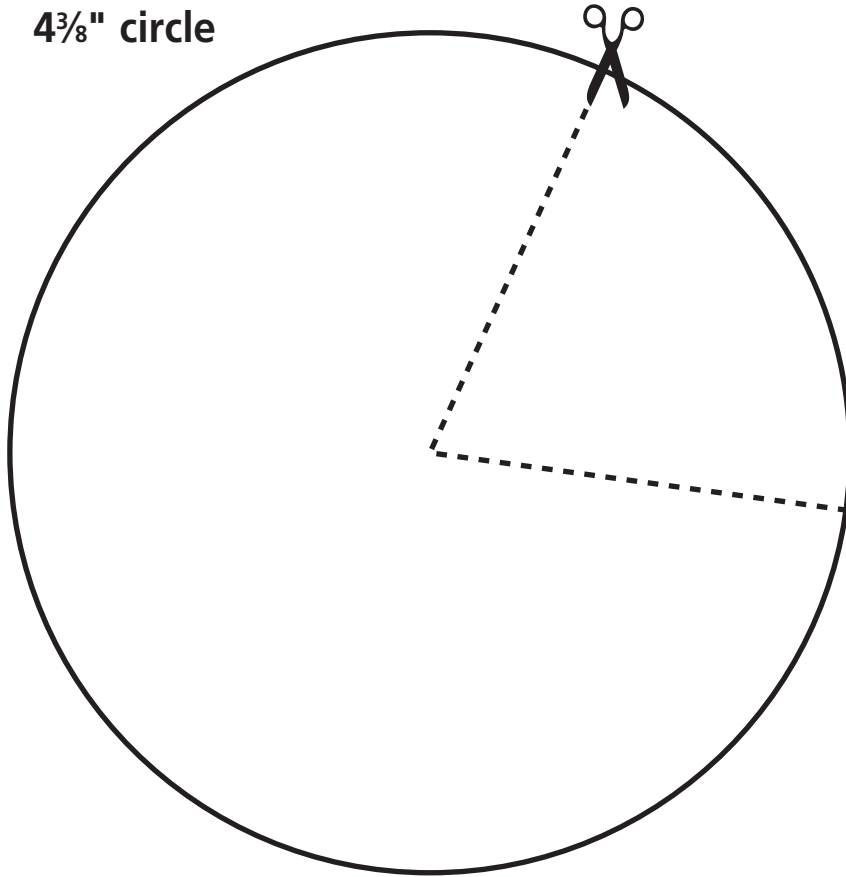

bottom. Make a label from construction paper that says "You're Out of This World!", and glue it on the side of the cup. For the top of each rocket, cut a 4³/₈" circle out of construction paper using the template provided. Form a cone by overlapping the two straight edges by approximately 1³/₄". Before securing the cone with tape, create the star topper. Glue a chenille stem between two Dancing Stars Mini Accents. Tuck the stem through the pointed top of the cone and attach together with tape. Twist the chenille stem into a fun curlicue. Form a hinge to open and close the top of the rocket by attaching a strip of tape between the cup and the inside of the cone.

Refer to full size template on page 2.
