

Shake up the season, wake up imaginations, and fill the room with excitement with enchanting, fun-filled snow globes. Invite your kids to add a personal picture to their magical scenes.

Snow Globes of Fun

You'll Need:

- T46152** Winter Joys *superSpots*® Stickers
- T10815** Wintertime *Mini Accents Variety Pack*
- T46606** Colorful Foil Stars *superShapes Stickers*

Children's photos, 7" clear plastic plates (with no writing on them), cotton balls, fake snow, glue, thick yarn or cord, small branches, and large craft sticks.

Note: For this activity, 10" clear plastic plates can also be used.

Directions:

- Ask your children to create a snow globe design on the inside of the 7" bottom plate using snowflake accents, winter stickers, branches, and cotton balls.
- Instruct them to:
 - Print their name on the craft stick and glue their picture to the top of the stick, above the name.
 - Glue the stick to the bottom edge of the plate so their photo is facing outward. (Set aside to dry.)
 - Add fake snow into the bottom plate.
 - Add a ring of glue around the rim of the top plate and carefully attach it to the bottom plate. (Let it dry overnight.)
 - Run yarn around the seam of the snow globe to help keep the snow inside.
 - Tie yarn off with a bow at the top for hanging. Then let it snow! Let it snow! Let it snow!
