

Celebrate Black History

★ Featured Display

Let the celebration begin by giving African-American history makers a bright star!

- Use Speech Balloons to feature statements about individual contributions in several areas – information you can pull from the timeline.
- Ask students to match each statement with the correct name (contributor), which is written on a star. (Hook-and-loop tape is used to place name on balloon.)
- Add a few extra names from the timeline of people who don't match any of the balloon statements on the display.

You could also feature key events, and ask students to match them to African Americans who played major roles during that period in time. There are many more bright stars in history to celebrate!
