

Colorblend Alphabet Line (Standard Manuscript) T-8266

★ Featured Display: Silly Sentences

After each letter is introduced, ask the class to brainstorm a list of words that begin with that letter. Next, ask students to create silly alliterative sentences for each letter. Write their sentences on note pad sheets and display them near the corresponding letters and connect with colored yarn. It's a fun reference for sound association and writing help. Students can copy each sentence (or create their own) and illustrate it. After all letters have been completed, bind the pages into an alphabet book.

★ You'll need

- T-8266** Colorblend Alphabet Line (Standard Manuscript) Bulletin Board Set
