

Learning FUN! Display

★ Featured Display: Star Student

Promote individuality and build community by honoring a student to be the "star" for a week. Ask your honored student to write responses or draw pictures to the prompts on the set pieces (example: "Things I do well..."). Add these sheets to the display. Write the student's name on a Star Medal and post near the "Star Student" header. Place the honored student's photo beneath the header. During their week, reward the star with special duties including being line leader, choosing books for story time, and being your special helper. Celebrate a new star student each week until all students have had a turn. This is a great way to learn about each other and make every student feel special.
