

Learning FUN!

Activity

Explore the best of winter & build graphing skills!

Winter Fun!

Teacher-Directed Activity
Add festive flair to graphing and creative writing activities!

You'll Need:

- T10098 Winter Wonder Classic Accents®
 - T75002 Polka Dots Red Blank Terrific Index Cards™
 - T73392 Polka Dots Red Incentive Chart – Large
- Brad fasteners, markers, and crayons

Directions:

Brrr... winter is here! Celebrate the season with lively discussions about everyone's favorite events and activities.

- Create a graph on the incentive chart listing brainstormed activities. Each child fills in one grid square for each item they enjoy.

- Once everyone has graphed their favorites, review the results together. What activity got the most votes? What was the least favorite?
- Place the accents, brad fasteners, index cards, markers, and crayons in a central location. Children draw and write about their favorite activities.
- Each child makes her/his own book using index cards for the pages. They include drawings and short captions on each page. Secure all pages together with a cover using a fastener.

What a brrr-illiant take home gift for children to share with their families.

Make It Your Own:

Enjoy some winter activities together. Have a candy cane or cocoa tasting day, take a walk in the snow, or complete a puzzle together.
