

Monthly & Seasonal Headers

Personalized visual clues featuring birthdays will help students grasp the concept of pictographs.

★ Featured Display

Personalize pictographs and watch kids learn the fun way. With this activity, students practice creating and interpreting a pictograph by using the month pieces as labels. Give children Mini Accents on which to write their names and birthdays. Next, they place the accents in the correct category on the graph. To check their abilities to understand and interpret the graph, ask questions about the month with the most birthdays, least birthdays, and so on. Kids will surely connect with this approach.
