

Showtime Pockets

Create a fun learning center that showcases sight words and promotes independent learning.

★ Featured Display

This interactive learning center features three levels of difficulty. Students practice sight words by reviewing them from the assigned boxes and then recording the sight words they don't know on blank flash cards for review at home.

Here's how to create the Learning Center:

- Add fadeless paper, trimmers, and header piece to the presentation board. Add title in Stick-On Letters
- Tape popcorn accents as shown and label boxes A, B, and C with Stick-On Letters.
- Attach Pocket Flash Cards with cup hooks.
- Add rows of silhouette heads as shown. Attach pockets to the display with hook-n-loop tape.
- Set up the café rod in notches that are cut 2" in on both side flaps. Create curtains from red velvet and tie with gold rope.

On back, place a calendar so students can track assignments. Add awards to celebrate completion.
